RADON SERVICES

Testing and mitigation

Almost 8 Million Homes Have Radon.
Is One of Them Yours?

Radon Can Cause Lung Cancer.
It's Time to Be Aware.

607-687-4222 | Tiogaopp.org

WHAT IS RADON?

LET US HELP PROTECT YOUR FAMILY FROM THIS SILENT KILLER

Radon is a radioactive element that is formed, as a gas, during the breakdown of radium. Radon exposure is the second leading cause of lung cancer deaths in the United States after smoking. Radon gas continuously seeps into the air from uranium-and radium-bearing soil and rock. Well water can be contaminated with radon and may carry radon into a house through the water pipes.

Tioga Opportunities, Inc.
